

Name: _____ School ID: _____ Department: _____

College (1) Worksheet: Transformation and Opportunity in the Age of AI

Material: From Smartphones to Smart Cars / The Wisdom Race

Instructions: Read the questions below and write a short reflection
(3-5 sentences) for each.

1. Trusting New Technology (Foxconn & EVs) **Working Together**

- **Context:** Foxconn and NVIDIA are working together to build "AI factories." They believe two companies are stronger than one.
- **Question: Do you prefer working on projects alone or with a partner? Do you think big companies need partners to succeed?**

- _____

2. Learning Like a Child

- **Context:** The video explains that AI learns like a toddler playing with blocks. It tries, makes mistakes, and tries again.
- **Question: Do you think it is cute or scary that a computer learns just like a human child? Why?**

- _____

Name: _____ School ID: _____ Department: _____

3. Fear of the Future

- **Context:** Many people are asking, "How exposed is my job?"
- **Question: Are you worried about finding a job in the future? Do you think AI will make it harder or easier for you to find work?**

- _____

4. Good and Bad

- **Context:** The speaker says that as AI grows, it can achieve more, which "could be both good and bad."
- **Question: What is one *good* thing AI might do for the world, and one *bad* thing it might do?**

- _____

5. Smart Factories

- **Context:** Foxconn wants to build "smart factories" that use AI to build cars automatically.
- **Question: Would you like to work in a factory full of robots, or do you prefer working in a place with many people?**

- _____
